NEW SOUTH WALES

STATISTICAL REGISTER

FOR

1913.

JOHN B. TRIVETT, F.R.A.S., F.S.S.,
Government Statistician.

Published by Authority of
THE GOVERNMENT OF NEW SOUTH WALES.

SYDNEY: WILLIAM APPLEGATE GULLICK, GOVERNMENT PRINTER.

1915.
[5s.]

PREFACE.

THE fourteen sectional parts of this volume have already been issued separately, and are now presented collectively accompanied by a General Index covering the subjects treated. Every care has been taken to keep the work free from errors; but if any have escaped detection it would be deemed a favour if their nature were indicated.

The figures should be read in conjunction with the "Official Year Book of New South Wales."

Bureau of Statistics,
Sydney, 1*st April*, 1915.

INDEX OF PARTS.

PART. PAGE.

General Index ix

I. Population and Vital Statistics 1
Section I.—Population 5
II.—Vital Statistics 82

II. Shipping 105

III. Commerce 161

IV. Meteorology 347

V. Private Finance 405

VI. Education, Science, and Art 469

VII. Hospitals and Charities... 515

VIII. Manufactories and Works 587
Section I.—Manufactories 591
II.—Industrial Wages, etc. 638

IX. Primary Production 649
Section I.—Agriculture 653
II.—Grazing and Dairy Farming 700
III.—Forestry, Water Conservation, and Fisheries 739
IV.—Mining 748
Appendix—Production in Police Districts 758

X. Social Condition 789

XI. Land Settlement 867
Section I.—Alienation and Occupation 871
II.—Rural Holdings 889

XII. Public Finance 931
State Railways and Tramways 961

XIII. Local Government 973

XIV. Statistical Review—Progress of New South Wales, 1856-1913 1179

1911—2nd April*	859,847	790,623	1,650,470	52·10	47·90	291,337	21·43	1·96

NOTE.—The figures quoted above represent the population of New South Wales within its present boundaries. Victoria was separated from New South Wales on the 1st July, 1851, and Queensland on the 10th December, 1859. The Federal Capital area of Yass-Canberra was transferred to the Commonwealth on 1st January, 1911.

Aborigines.—Aborigines are included in the totals for the last five Censuses. The numbers included were 983 in 1871, 1,643 in 1881, 2,280 in 1891, 4,287 in 1901, and 2,022 in 1911.

* The population of the Federal Capital area (997 males, 727 females, 1,724 persons) is included.

No. 2.—Population at the Census, 31st March, 1901, and 2nd April, 1911.

Population.	31st March, 1901.			2nd April, 1911.*		
	Males.	Females.	Total.	Males.	Females.	Total.

NOTE.—The *minus* sign (—) indicates an excess of departures over arrivals.

As from the 1st January, 1911, the population of the Federal Capital Area (Yass-Canberra) was excluded from the population of New South Wales.

NOTE.—Mortgages of Registered British Vessels are under the Imperial Merchant Shipping Act of 1894. The mortgages are divided into two classes—one in which the ship is the sole security (principal sum), and the other in which advances are made on the security of what is termed "the Account Current"—an Account Current being in most cases secured by land and other properties, in addition to shipping. The mortgage deed is generally executed for the full amount of the advance.

NOTE.—All certificates must be renewed at least every twelve months. For a six month's certificate the charges for vessels not exceeding 50 tons are £1; over 50 and under 100 tons, £2; over 100 and not exceeding 300 tons, £3; and an additional £1 for every additional 300 tons or part thereof, with a maximum fee of £10. For a twelve month's certificate the charges are double these rates, with a maximum of £20. Under the provisions of the Navigation Act, 1901, all vessels, steam or sailing, passenger or cargo, require certificates.

No. 41.—Pilotage—Entries and Clearances, 1909–1913.

Pilots and Pilotage.—Appointments to the Pilot Service are made by the Governor and Executive Council, and all Pilots are Government officers. Certificates of Exemption from Pilotage for the various ports of the State may be granted to British subjects, and may be granted and used only in respect of British ships registered in the Commonwealth or New Zealand employed in the Australasian, South Sea Island, or the whaling trade, on passing the necessary examination, provided they have been with their vessels as masters or chief officers three times in and out of the particular port for which the Exemption Certificate is desired. Masters of vessels who hold Certificates are not liable for pilot dues unless the services of a Pilot are obtained.

* The Clarence River tug has been purchased by the Government, and the Department of Navigation conducts the tug service.

Note.—The Department of Navigation subsidises tugs at the places mentioned in the above table for the purposes of towing vessels in and out of port or river. The tugs are not allowed to leave the station without the sanction of the Department, and the master must endeavour to be in the vicinity when vessels are ready for sea, and in cases where vessels are in actual danger he must promptly render assistance. The maximum rate for ordinary towing is fixed at 4d. per registered ton, with a minimum of £1 10s. Disputes arising with respect to special services must be settled by arbitration. The masters of tugs are required to take pilots off to vessels signalling for services of a pilot.

No. 46.—Tides—Sydney Harbour—1904–1913.

Tides.—*Port Jackson, Sydney.*—The self-recording tide-gauge was established at Fort Denison in 1867, and since that year there has been a continuous record of tides. The average rise and fall of the ordinary tides is 3 feet 4·5 inches; but the spring tides, on the average, rise 5 feet 1·5 inches, the greatest range of spring tides in twenty-four hours being 6 feet 7 inches.

*Complete information not available. †No Consular inquiries were held.

Wrecks.—The wrecks and disasters to British merchant shipping are those which came within the jurisdiction of the Court of Marine Inquiry of N.S.W. The wrecks of Foreign shipping relate to vessels the loss of which formed the subject of inquiry by Consuls of foreign countries. The list does not include vessels which have left the State and have apparently been lost, as they have not since been reported.

Tweed River Heads.

Pilot steamers—"Captain Cook," Sydney; "Ajax," Newcastle.

No. 51.—Certificates, Department of Navigation—Comparative Table.

Department of Navigation.—The "Navigation Act, 1901," created the Department of Navigation.

Certificates—*Master.*—To obtain a master's Foreign-going certificate, the candidate must be at least 21 years of age, and have served six years at sea. For the coast trade the minimum age is 20 years, and the service at sea five years, one year of which must have been as mate, or 2½ years second mate.

Mate.—To obtain a mate's Foreign-going Certificate, a first mate must be at least 19 years of age, and have served five years at sea, one year of which must have been as mate in a grade not lower than third or fourth mate in charge of a watch, whilst in possession of a second mate's certificate. For second mate the minimum age is fixed at 17 years, and the service at sea four years. For the coast trade a mate must be at least 19 years of age, and have served four years at sea. A second mate must have served three years at sea.

Engineer.—A candidate for a first-class certificate of competency must be at least 22 years of age, and for the second and third-class certificates the minimum age is fixed at 21 years.

Marine Surveyor.—Certificates of Competency are issued for Marine (ship) Surveyors and Marine (engineer) Surveyors, to persons who pass the prescribed examinations for these certificates. A candidate for Marine (ship) Surveyor's certificate must have served five years at sea while holding at least a first mate's certificate, and at least one year of this service must have been as master. He must also hold a master's foreign-going certificate. Candidates for Certificates of Competency must possess a certificate of competency as a first-class engineer, and have served five years as engineer of a sea-going steamship, with a certificate not lower than that of a second-class engineer. One year at least must have been served while in possession of a first-class certificate while in a sea-going steamer of over 100 nominal horse power. Certificates of Service are issued to persons who have served as Marine Surveyors for three years prior to 1881.

Pilotage Exemption Certificates are granted to any British subject holding a certificate of competency as master, either for a foreign-going or coast-trade vessel, who can prove that he has acted in the capacity of master or first mate of a vessel entering and departing three times from the port for which exemption is desired, and the certificates may be used only in the Australasian or South Sea Island trade, on vessels registered in the Commonwealth or in New Zealand.

No. 17.—Imports Oversea, 1913.

Value of Imports.—The value of goods imported from countries beyond the Commonwealth represents the amount on which Duty is payable or would be payable if the Duty were *ad valorem*. The value of goods subject to Duty is taken to be the fair market value in the principal markets of the country whence the same were exported, with an addition of 10 per cent. to such market value.

Quantities.—Generally, but not invariably, quantities have been shown in the ordinary trade unit. Where Imports have been declared in packag without an indication of the number, capacity, or weight of the articles imported, only the values have been inserted.

N.E.I. means "Not elsewhere included."

Import Duties.—The Duties charged on Imports into the State of New South Wales are collected under the Commonwealth of Australia Customs Act, 1901 (No. 6 of 1901); the Customs Tariff, 1906, South African Preference (No. 17 of 1906), and the Customs Tariff, 1908-11 (No. 19 of 1911).

NOTE.—Where no quantity or value is shown of "Duty paid on" or value of "Gross amount of Duty" the articles are to be taken as free of Duty.

Total Imports Oversea, 1913—£32,350,663. Gross Duty received, £5,410,605.

No. 18.—Exports Oversea, 1913.

Value of Exports.—The value of goods exported is the value in the principal markets of the State in the ordinary commercial acceptation of the term.

Exports—Australian Produce.—Articles which were partly or entirely manufactured from imported materials are shown under this heading The Commonwealth Customs Department does not now distinguish between the produce of New South Wales and that of other States, the whole being classified as "Australian."

Quantities.—Generally, though not invariably, quantities have been shown in the ordinary trade unit. Where exports were declared in packages without an indication of the number, capacity, or weight of the articles exported, only the Values have been inserted.

N.E.I.—Means "Not elsewhere included."

Ships' Stores.—Goods shipped as ships' stores on board oversea ships have not been included in exports. For ships' stores, see Table No. 19.

NOTE.—The particulars for 1912 and 1913 relate to "Australian" produce, as particulars of "New South Wales" produce are not now available. Probably 90 per cent. of the "Australian" produce is the produce of New South Wales.

No. 21.—Principal Articles of New South Wales Produce Exported, 1904-1913—Destination.

Country to which Exported.		1904.	1905.	1906.	1907.	1908.	1909.	1910.*	1911.*	1912.*	1913.*

Time Ball.—The Time Ball at the Sydney Observatory is dropped every day at 1 p.m. Standard Time. The Time Ball at Newcastle is controlled by signals from the Sydney Observatory.

Standard Time.—The mean time of the 150th meridian of longitude east of Greenwich, England, is the Standard Time throughout New South Wales, with the exception of the area within the Municipal District of Broken Hill and the Electorate of Sturt, for which the mean time of the 135th meridian of east longitude is adopted.

Position of Sydney Observatory.—Latitude, 33° 51′ 41·1″ south; longitude, 151° 12′ 23·10″ east; altitude, 144 feet.

Thermometers.—The thermometers are exposed in a shed 11 feet square, of which the sides are 5 feet 6 inches high, and enclosed to within about 30 inches of the ground with open lattice-work. The roof is conical, rises to 13 feet above the ground, and is covered with louvres close enough to keep out rain.

No. 3.—Temperature, Sydney, 1913.

No. 16.—Rainfall during 1913.

(Particulars furnished by the Officer-in-charge, Weather Bureau, Sydney.)

During the year the rainfall over a considerable area of New South Wales was, on the whole, very satisfactory. Splendid rains—most beneficial to the wheat areas—were received during April, May, June and September, and to a moderate extent in October. The year's rainfall was above the average in the Lachlan district, on the Western Plains, North Western Slope, Southern Tableland, and also over an extensive area in the Coastal districts.

Considered in respective seasons, the Summer was dry, as only about seven-tenths of the State received falls which exceeded the average. The Winter season was dry also, and in the Spring only one-third of the seasonal falls were above the average. During the Autumn the most serviceable rains of the year were experienced, the records indicating that the falls during more than two-thirds of the period were above normal. During January, February and December, heat conditions were very marked, more especially in December.

Similar particulars for each month are as follow :—

January.—Monsoonal conditions, which prevailed last month, were again in evidence, and combining with an Antarctic disturbance, they produced some heavy falls early in the month over the Northern districts. Many portions of the State, however, received little or no rain, notably the far west and the western part of Riverina. The South-eastern corner of the State fared little better, but over the remaining parts the rainfall was fairly good, although in most cases below the average.

February.—As the result of three rainstorms, the greater part of the western half of the State, and several isolated tracts, principally on the North Coast, were much benefited, the registrations generally being above the average. In the Eastern districts, the rainfall showed marked differences, particularly over the Coastal and Blue Mountain area, many of the stations receiving less than half the usual quantity. Generally speaking, the weather, owing to monsoonal influences, was divided between heat-wave conditions and rainstorms.

March.—Unusually stormy and wet conditions prevailed, the rainfall over four-fifths of the State being above the average. Six distinct monsoonal disturbances occurred, the resultant falls, especially in the earlier part of the month, when they were accompanied by violent S.E. to S.W. winds, being exceptionally heavy over the Central and South Coastal districts. Small areas in the North-eastern quarter, and in the Central, North, and far North-western districts were not so well favoured, the total points recorded being generally below normal.

April.—Fairly good rains, exceeding the average, were recorded over the northern and central highlands and coastal districts, but in other parts of the State the totals were below normal, especially in parts of the Riverina and far south-west districts where little or no rain fell at several stations. In the early part of the month the north coast was visited by a cyclonic storm with very heavy rains, accompanied by east to south-east gales, which extended along the sea-board and highlands, and eventually spread westward in a lighter degree, benefiting many other parts of the State.

May.—Monsoonal conditions prevailed, the State being visited by five distinct rainstorms, and with the exception of the country west of the Darling River, almost the whole area received falls in excess of the average. In the second week consistent and heavy rains were experienced on the coastal, table land and north-eastern districts generally, and many coastal streams overflowed and caused considerable damage in the surrounding country, the lower Hunter basin suffering most severely in this respect. Similar weather, but not so severe, occurred towards the end of the month. On the whole, the temperature was mild, but frosts were reported from many inland stations.

June.—Nearly the whole area of the State east of the Darling River received considerable rainfall, the totals registered being on the whole above the average. The Central and South-coastal areas were specially visited, the downpours in many cases being persistent and phenomenally heavy, resulting in considerable damage to property through the overflowing of the banks of a number of the rivers and streams. On the contrary, the Western Division experienced falls which were very meagre and scattered, especially in the far north-west corner of New South Wales, where at many stations no rain whatever occurred. The temperature generally was cold to mild, with periods of frosts and snowfalls on the Tablelands.

July.—With the exception of a few places, on the Central and North Coast generally, the rainfall was below the average. The rain, the result of four distinct disturbances, was confined chiefly to the Southern and Eastern districts, and was for the most part light in character, but heavy downpours occurred at various localities on the coast and highlands. In the Western division, the showers were extremely light and scattered, several stations reporting a total absence of rain. Cool to cold weather was experienced generally, with very low early-morning temperatures over the Slopes and Highlands.

August.—The weather conditions were remarkably dry. At only one isolated station, Delegate, on the South Coast, did the rainfall records exceed the average. Although four distinct disturbances passed over New South Wales from West to East, the best rains were received during the fourth week, when light to moderate totals were recorded generally. The most favoured districts were the Central and Southern Tablelands and South-western Slopes, but in the Western and Northern Tablelands the results were extremely poor. On the whole, the principal features ruling in regard to temperature were mild to warm days and cool to cold nights.

September.—Four distinct disturbances of a rainy character passed over New South Wales, two being confined chiefly to the southern half of the State, and two being fairly generally distributed. The "wheat belt" benefited considerably, for, although the rain was light, its frequency was a favourable feature. Almost the whole area south of the Murrumbidgee River and the far south-west districts were favoured by a rainfall above the average. In the north-east corner of the State and on parts of the coast and highlands many good falls also occurred approaching or exceeding the average, but they were generally of a scattered nature. Elsewhere the amounts recorded were below normal, but were on the whole of a beneficial character. Mild days and cool to cold nights were registered throughout the month, but occasionally warm conditions became general.

October.—The State was visited by four rainstorms of monsoonal character, accompanied by thunder and hail in various districts, and by severe, though isolated, wind storms. A considerable expanse of country was especially benefited, fully three-fourths of the area of New South Wales receiving falls in excess of the average. This favoured portion was irregular in shape, and included most of the southern half, and large, though broken tracts, along the tablelands and southern slopes. A shortage of rain was recorded in the central and northern coastal districts, and on the northern parts of the State, but the weather conditions experienced generally were fairly satisfactory. As regards the southern half, the rains were practically the best since March last. The day records of temperature were, with the exception of cool spells, mostly mild over eastern parts, and warm to hot west of the mountains.

November.—Two distinct storms occurred during the early part of the month. At the first visitation light to moderate, and in parts heavy rain, was reported over the eastern and northern districts; and in the second instance light to heavy falls, accompanied with thunderstorms and severe winds, were experienced generally. The amount of rain received on the whole was much below the average, with the exception of a few isolated districts. At the majority of stations the totals failed to reach one inch, and in many cases were under 10 points. During the last week many centres were visited by hail and wind storms, which were the means of causing much damage to crops and property.

December.—The State was affected by only two rainstorms of any importance. The first, with splendid falls, was confined entirely to the northern half of New South Wales; while the welcome rains of the second storm were more widely distributed. Over a large area of the central northern division, the extreme west, and the country about Cootamundra, Yass, Bungendore, and Braidwood, the totals recorded were above the average; but in the Riverina and on the central western Slopes, the rain recorded was extremely light, and at various stations no results whatever were obtained. Excessive temperatures were registered, especially during the first two weeks.

No. 17.—Monthly Rainfall (points)—Comparative Table.

Compiled from particulars furnished by the Commonwealth Meteorologist.

(100 points = 1 inch.)

Gold—Value per ounce standard.—Standard or sovereign gold has a fineness of 22 carat, and is coined into 3·8937 sovereigns (£3 17s. 10½d. per ounce); pure gold or 24 carat, is worth £4 4s. $11\frac{5}{11}$d. per ounce. The whole of the gold contained in deposits sent to the Sydney Branch of the Royal Mint for melting, assaying, and coining, is accounted for at the rate of £3 17s. 10½d. per ounce, standard or sovereign gold. The Sydney Mint was established in 1855.

No. 2.—Royal Mint, Sydney Branch—British Silver and Bronze Coin issued, 1868–1910.

NOTE.—The issue of British silver and bronze coin ceased in 1910.

Light Gold and Silver Coins.—Light gold coins in parcels of not less than £50 nominal value are received at the Sydney Mint and recoined free of charge, but depositors are required to bear the loss by abrasion. Under the Order-in-Council of 16th March, 1892, as extended by the Order-in-Council of 19th March, 1908, light gold coins are withdrawn by the Sydney Branch Mint, at their nominal value, provided that they have not been called in by any proclamation, and have not been treated illegally. The Coinage Act, 1891, defines a gold coin as being used illegally, when it has been impaired, diminished, or lightened otherwise than by fair wear and tear, or has been defaced by stamping any name, device, or number thereon. The Act further defines a loss of weight from the standard weight exceeding 3 grains as *primâ facie* evidence that the coin has been used illegally.

British Silver Coin.—The withdrawal at Sydney of re-issuable silver coin, not exceeding a nominal value of £50,000 in any one year, is authorised. Coin so withdrawn is shipped for use in other parts of the Empire. Worn silver coin withdrawn is melted into ingots, which are shipped to London for recoinage.

Seigniorage.—The difference between the nominal value of silver and the average price per standard ounce paid by the London Mint represents the seigniorage or gross profit. The coinage or nominal value of silver per standard ounce is 5s. 6d., and the average price per ounce paid by the London Mint during 1913 was 2s. $3\frac{9}{16}$d. The difference, 3s. $2\frac{7}{16}$d., represents the seigniorage accrued; against this, however, must be placed the loss to the Imperial Government by purchase of worn silver at its nominal value. The supply of British silver coin to the Commonwealth ceased in 1910, and by arrangement with the Imperial authorities a local silver currency has been issued, the profit on which now accrues to the Federal Government (see Table No. 3).

Total	583,903	181,773	104,322	869,998

Mint Charges.—Gold deposited at the Sydney Mint for melting, assaying, refining, and coining is subject to a charge per ounce, and the charges are deducted from the gross value of the deposit. They are—

(A) For assaying and coining.—Charge fixed by the Royal Proclamation of 17th September, 1900—1d. the ounce standard.

(B) For melting and refining.—Levied on all gold insufficiently refined and toughened for direct conversion into coin—

- (*a*) A deposit of 500 ounces or under, at the rate of 3d. the ounce, gross.
- (*b*) A deposit of more than 500 ounces, but not more than 1,000 ounces, at the rate of 2d. the ounce, gross.
- (*c*) A deposit of more than 1,000 ounces, at the rate of 1d. the ounce, gross.
- (*d*) A deposit containing more than 5 per cent. of base metal, at the rate of 1s. the ounce for all base metal contained therein, in addition to the ordinary charges for melting, assaying, refining, and coining.

The minimum charge on any one deposit is 6s., except in the case of deposits containing more than 5 per cent. of base metal, when the minimum charge is 10s. 6d.

Silver retained.—In addition to the above, the Mint authorities retain all silver contained in deposits, but payment is made for the silver in excess of 8 per cent. at a rate from time to time fixed by the Deputy Master. The rate paid from the 1st January to the 30th November, 1901, was 2s. 3d. per oz. fine; from the 1st December, 1901, to the 11th May, 1902, 2s. per oz. fine; and from the 12th May, 1902, 1s. 6d. per oz. fine.

Section II.—Friendly Societies, Trade Unions, Building Societies, and Co-operative Societies.

Table No. Page.

Friendly Societies Proper—

61. Sick Funds, 1913 439
62. Disposal of Sick Funds, 1913 439
63. Funeral Funds, 1913 440
64. Disposal of Funeral Funds, 1913 440
65. Medical and Management Funds, 1913 441
66. Disposal of Medical and Management Funds, 1913 441
67. Additional Funds, 1913 442
68. Disposal of Additional Funds, 1913 442
69. All Funds, 1913 443
70. Disposal of All Funds, 1913 443
71. Numerical Abstract, 1913 444
72. Interest-earning Rates, Affiliated Orders, 1900–13 445
73. Rates of Main Causes of Increase and Decrease of Membership, 1913 445
74. Sickness, 1913 (Males only) 445
75. Single (Non-affiliated) Societies, 1913 446
76. Branches, Membership and Funds, 1904–13 446
77. Receipts and Expenditure, 1904–13 447
78. Miscellaneous Friendly Societies, 1913 447

Trade Unions—

79. Membership, Receipts, Expenditure, and Assets, 1913 448
80. Members unemployed at 31st December, 1913, and Causes of Unemployment 456
81. Membership, Receipts, Expenditure, and Assets, 1904–13 458

Permanent Building Societies—

82. Liabilities and Assets 458
83. Profit and Loss Statements for year 458
84. Liabilities and Assets, 1904–13 458

Starr Bowkett Building Societies—

85. Liabilities and Assets 459
86. Transactions for the year 460
87. Liabilities and Assets, 1904–13 462

Co-operative Societies—

88. Trade Account for the year 462
89. Profit and Loss Account for the year 463
90. Membership and Balance-sheets 464
91. Liabilities and Assets, 1904–13 464

Section II.—FRIENDLY SOCIETIES, TRADE UNIONS, BUILDING SOCIETIES, AND CO-OPERATIVE SOCIETIES.

The following statement shows the titles of the various Friendly Societies which are denoted by initials in Tables Nos. 61 to 74:—

A.H.C.G.—Australasian Holy Catholic Guild.
A.N.A.—Australian Natives Association.
A.O.F.—Ancient Order of Foresters.
G.U.O.F.G.—Grand United Order of Free Gardeners.
G.U.O.O.F.—Grand United Order of Oddfellows.
H.A.C.B.S.—Hibernian-Australasian Catholic Benefit Society.
I.N.F.—Irish National Foresters.
I.O.O.F.—Independent Order of Oddfellows.
I.O.R.—Independent Order of Rechabites.
L.P.B.S.—Loyal Protestant Benefit Society.
M U.I.O.O.F.—Manchester Unity Independent Order of Oddfellows.
N.I.O.F.—National Independent Order of Oddfellows.
O.R.F.—Order of Royal Foresters.
P.A.F.S.—Protestant Alliance Friendly Society.
O.S.T.—Order of Sons of Temperance.
U.A.O.D.—United Ancient Order of Druids.

NOTE.—Affiliated societies are those with branches· single societies have no branches.

Friendly Societies Proper.—This term includes Societies which provide the recognised benefits, viz., Medical Attendance, Sick Pay, and Funeral Donations. Dispensaries, Medical Institutes, and Accident Societies, &c., are included in the Miscellaneous Societies in Table 78.

1913	15	1,975	2,195	465	244	7	529	1	47	2	3,285	3,505

* Includes five Intermediate High Schools and twenty-two District Schools, which carry out both Primary and Secondary work. Includes also 104 Superior Public (Day Continuation) Schools.

‡ From 1905 to 1910 includes schools under the control of a certificated Public School teacher at the following institutions:—N S.S. "Sobraon," Industrial School for Girls, Brush Farm Home for Boys. These schools are visited regularly by Department's officers. In February, 1911, the N.S.S. "Sobraon" was purchased and taken over by the Commonwealth Government.

§ Includes schools in Federal Capital Area, for which see Table No. 23.

NOTE.—The above figures a exclusive of the Sydney Grammar School and the School for the Deaf and Dumb and the Blind.

No. 10.—Public Schools—Classification of Schools in operation during the years 1904-1913.

* The figures in this column represent distinct children who have attended a State school the whole or some portion of the year, children who may have received instruction at more than one State school during the year being counted only once.

† The enrolment of scholars and the average daily attendance being determined for each quarter of the year, an average of the four quarters is taken, and the result is set down in this table.

‡ These figures include children temporarily absent from illness or other causes, but excludes those who are known to have left school.

§ Children attending subsidised schools are not included in these figures.

Compulsory Attendance.—The Act makes it obligatory upon all children between the ages of 6 and 14 years (unless just cause of exemption can be shown) to attend school not less than 70 days in each half-year.

Causes of Exemption.—The causes of exemption defined by the Act are :—That the child is being regularly and efficiently instructed in some other manner ; that from sickness or infirmity or from fear of infection or other unavoidable cause there is inability to attend ; that there is no State School within 2 miles by the nearest road, or that the child has already been educated up to the standard of education required. Under the last clause, examinations for exemption certificates are held at the annual inspection of the schools.

Federal Capital Area.—For particulars in regard to schools situated in the Federal Capital Area, included in above, see Table No. 23.

Religious Instruction.—Under the Public Instruction Act (43 Vic. No. 23), which came into force on 1st May, 1880, it is provided that the instruction imparted at Public Schools must be absolutely unsectarian. "Secular instruction is defined by the Act as including general religious teaching as distinguished from dogmatical or polemical theology." Provision is made for authorised religious teachers of any denomination to give religious instruction at specified hours to the scholars belonging to their persuasion, and separate class rooms are generally provided for this purpose. The total number of visits paid to State schools during 1913 by religious teachers for the purpose of imparting the special religious instruction to children of their own denomination, authorised by the Act, was 57,321, namely:—Church of England, 30,958; Roman Catholic, 833; Presbyterian, 7,922; Methodist, 10,914; other denominations, 6,694.

Subsidised Schools.—Subsidies are granted only in the case of children resident in thinly-populated country districts, so far removed from any Public School that attendance at such is a matter of impossibility. The conditions are that where a private teacher is engaged by two or more families in combination, or by a single family with not less than four children of school age, such teacher, if approved by the Minister, may be paid subsidy as follows :—

"In the Eastern portion of the State at the rate of £5 per pupil per annum on the average monthly attendance, such aid not to exceed £50 yearly, and in the Western portion of the State, £6 per pupil per annum, not exceeding the sum of £60 yearly. The Western portion of the State shall be that portion within which living allowances are granted to Officers under the Public Service Board."

Subsidy may also be paid to a parent as an aid towards the boarding of the children with friends or relatives in a township for the purpose of attending a Public School, at the rate of 6d. per day in the Eastern Division of the State, for each full day's attendance, up to a maximum of £5 per child, per annum, and at the rate of 7d. per day, up to a maximum of £6 per child, per annum, in the Western Division of the State.

* Reliable figures for preceding years are not available for these schools.

Superior Public Schools.—In addition to the above Superior Public (Day Continuation) Schools, established in 1912, there are other Public Schools entitled to the designation "Superior" by having at least 20 pupils eligible to join a fifth class. In these schools, the course of work in English History, Geography, Mathematics, Elementary Science, Drawing, and Manual Work, is that prescribed for the first and second year's course in the High School syllabus. The course of study does not include languages other than English, except under specified conditions. No statistics of this latter type of school are available.

UNIVERSITY BURSARIES.					
Tenable at Sydney University	20	4	24	Text Books not exceeding £5 per annum, and free education, together with an allowance not exceeding £20 per annum to those who need not board away from home, and not exceeding £50 per annum to those who must necessarily do so.	Open to pupils of all schools under 19 years of age, who have matriculated at the annual Leaving Certificate Examination, and whose parents are unable to pay for their education at the University. Examination held on 24th November, 1913.

Private Benefactions.

Falkiner Scholarship.—Towards the close of 1910, Mrs. F. S. Falkiner, of Boonoke, Deniliquin, donated the sum of £2,500 to establish a Scholarship as a memorial to her late husband. The Scholarship, which is open for competition at the leaving certificate examination to boys attending the Hay District School, entitles the holder to free University education and text-books for four years, and a grant for board and lodgings

Riverina Scholarship.—As the Falkiner Scholarship is available for competition only once in every four years, the Department supplemented the award by a Scholarship similar in value to be known as the Riverina Scholarship. This was first awarded from the beginning of 1914.

In addition to the above, a large number of Technical Scholarships and Bursaries are awarded annually.

For Scholarships, &c., at Sydney Grammar School, and at University of Sydney, see Tables Nos. 36, 50, and 51 respectively.

INFANT TEACHERS TAKING EVENING EXTENSION COURSE—Women ... 47

* Including 1 student who left during the year. † Six men and five women were not appointed at the end of the first session and two men and two women were not appointed at the end of the second session. § Includes 6 Graduates.

Training College for Teachers.—The full training course now extends over a period of two years, but students have the option of leaving at the end of twelve months. In addition to instruction in the professional subjects, the students are also given practical work under proper supervision at the Practice School, Blackfriars, (which is contiguous to the Training College), and the Practice School, North Newtown. Several of the largest Public Schools are also used as Supplementary Practice Schools. The female students in their second year also receive lectures on Kindergarten methods and give lessons in the Kindergarten department of the Practice School.

Teachers' Training College Library.—There were 7,540 volumes and periodicals in the library at 31st December, 1913.

The Sydney Grammar School, incorporated by Act of Parliament, December, 1854, was established to confer on all classes and denominations British subjects the advantages of a regular and liberal course of education. The school was opened 3rd August, 1857.

The Act authorised the payment of £20,000 for erection of school buildings and Head-master's residence, and an annual endowment of £1,500.

Senior and Junior Public Examinations.—In connection with the Sydney University two Public Examinations, termed the Senior and Junior, are held annually at Sydney and at a number of local centres. These Examinations are open to all candidates, male or female, who may present themselves. The University Professors, together with such other persons as the Senate may appoint, form the Board of Examiners.

In the year 1907 the qualification for matriculation in the various Faculties was raised, and is now divided into two Divisions (Lower and Higher). The Matriculation Examination is held annually in the month of March, but it is possible under the existing regulations to qualify in the subjects at the Lower Standard at the Junior Public Examination and in the subjects of the Higher Standard at the Senior Public Examination.

The examination for matriculation includes the following subjects:—(1) English, (2) Mathematics, (3) Latin, Greek, French, or German, (4) one or more of the following in accordance with the regulations prescribed for admission to the several Faculties or Departments—one or more of the foregoing languages not already taken, Mechanics, History; one of the following subjects—(a) Botany, (b) Chemistry (Inorganic), (c) Geology, (d) Physics, (e) Physiology, (f) Zoology. Candidates are required to pass in the Lower Division, and in such subjects of the Higher Division as are prescribed for admission to the respective Faculties or departments of study.

Preliminary Examination for Articled Clerks.—Persons desirous of entering into articles of clerkship with Attorneys, and who have not taken a University Degree, nor passed the preliminary examination required in England, Scotland, and Ireland, are required to pass a preliminary examination conducted by the University. The standard of the law matriculation examination is the University matriculation examination, Lower Division. Clerks are also required to pass three subsequent examinations in Legal History, Intermediate Law, and final. These examinations are conducted by a Board appointed by the Supreme Court.

Honorary Degrees.—The University has no power to confer honorary degrees.

Ad Eundem Degrees.—The Senate is empowered to confer *ad eundem gradum* degrees on graduates of other recognised Universities.

N.S.W. Medical Degrees.—As notified in the *Government Gazette* of 6th June, 1890, the second part of the British Medical Act of 1886 applies to New South Wales. Holders of the degrees of M.D., M.B., and Ch.M., conferred by the Sydney University, are consequently recognised and may be registered in the United Kingdom in the same way as holders of similar degrees, conferred by a British University, are registered in New South Wales.

Faculty of Medicine—Hospitals.—The Royal Prince Alfred Hospital was constituted a General Hospital and Medical School for the instruction of students attending the Sydney University. The Chancellor of the University and the Dean of the Faculty of Medicine are Directors *ex officio*. Other Hospitals recognised by the University as places where study may be carried on in connection with the Faculty of Medicine are Sydney Hospital, St. Vincent's, the Royal Hospital for Women, Royal Alexandra Hospital for Children, the Gladesville and Callan Park Hospitals for the Insane, and the Women's Hospital; and, for Dental students, the United Dental Hospital of Sydney.

* See footnote, Table 47.

Under its Charter, the University of Sydney may confer, after examination, degrees in arts, law, and medicine; but not in theology and divinity. Graduates of Sydney University rank equally with graduates of British Universities.

Under the Act of 1884 women have all University privileges; and degrees may be granted to women in all branches of knowledge.

Senate.—The government of the University, by the University and University Colleges' Act of 1900, was vested in a Senate, consisting of sixteen (16) elected and not more than six (6) *ex officio* members, being Professors of the University. By the amending Act of 1912 the Senate is now constituted of four Fellows appointed by the Governor—one Fellow elected by the members of the Legislative Council, one Fellow elected by the members of the Legislative Assembly, five Fellows representative of the teaching staff of the University, ten Fellows elected by the graduates of the University, and three Fellows elected by the aforesaid Fellows. The Act of 1912 provided that in addition to the ten Fellows elected by the graduates, The Honorable Sir Normand MacLaurin and His Honor Judge Backhouse should each during his life be a Fellow of the Senate. The Senate elects from its members a Chancellor, who holds office for three years, and a Vice-Chancellor, who is elected annually.

Faculties.—There are now four Faculties: Arts, Law, Medicine, and Science. A Dean is appointed by the Senate to each Faculty from time to time for a term not exceeding two years. There are also Departments of Engineering, Dentistry, Veterinary Science, Agricultural Science, Economics and Commerce, and Military Science.

1913	2	3	20	...	25	...	...	...	122

* Includes two special lectures

Note.—The low average attendance at Extension Lectures since 1910 is to be accounted for by the fact that the Board is now doing very much more work in country towns where the attendance, though generally good, cannot be large. The diminution, therefore, is not to be considered an unfavourable sign.

University Extension Lectures.—Courses consist of as many lectures as required, and may conclude with the examination of students whose attendance has been satisfactory; but no course may be of less than three lectures and in short courses no examination is allowed. Special free lectures are given singly or in course when opportunity and means permit.

[5] Includes £266 Grant to University Extension Board, and £1,800, Retiring Allowances Investment Fund.

Notes regarding items in years prior to 1913, are contained in this part of the Statistical Register for those years.

Finance.—The supervision of the financial affairs of the University is entrusted to a Finance Committee consisting of the Chancellor, Vice-Chancellor, and four elected Fellows, subject to the direction and control of the Senate.

"Challis" Fund.—In 1880 the late Mr. J. H. Challis bequeathed to the University his whole estate, which, under the terms of the will, was transferred to that institution in September, 1889. The assets in Australia and England amounted to £276,856. The Senate has decided that the Fund shall be applied as permanent provision of income for educational uses. Through the agency of the Fund seven "Challis" Professorships and six "Challis" Lectureships have been established.

Other Foundations.—There are also the "Hovell" Lectureship, £6,000; the "Wentworth" Travelling Fellowship, now amounting to £3,703, and the Curatorship of the "Macleay" Museum, £6,000. In the year 1885 a sum of £30,000 was received from the estate of the late Mr. Thomas Fisher for establishing and maintaining a library. In 1896, the University received a donation of £50,000 from Mr. P. N. Russell; and, in 1904, a second amount of £50,000, to endow the Department of Engineering; and there are other Foundations smaller in amounts.

University Museums.—The "Nicholson" Museum of Antiquities, the "Macleay" Museum of Natural History, and the Museum of Normal and Morbid Anatomy, attached to the University, are accessible to the public under certain regulations. The Aldridge Collection of Broken Hill Minerals donated by Mr. Hugh Dixson is housed in the Macleay Museum.

Fisher (University) Library.—The Fisher Library building at the University was opened in September, 1909. The Library contains, approximately 100,000 volumes.

SCHOLARSHIPS.

Founded.	Name.	Amount. £	Years Tenable.	How Awarded.
	AWARDED AT THE MATRICULATION EXAMINATION.			
1853	Barker Scholarship, No. II ...	50	1	For mathematics.
1857	Cooper Scholarship, No. II ...	50	1	For classics.
1864	Lithgow Scholarship ...	50	1	For French and German.
1877	Bowman-Cameron Scholarship ...	35	3	For general proficiency.
1878	James Aitken Scholarship ...	50	1	For general proficiency.
1880	Freemason's Scholarship	50	3	For general proficiency. (Open only to sons of Freemasons of the U.G.L. of N.S.W.)
1889	Council of Education Scholarship	...	3	For general proficiency. (To be open only to sons of teachers, or officers in the Department of Public Instruction. Not yet operative. The fund in December, 1913, amounted to £821.)
1905	Queen Victoria Memorial Scholarship.	20	3	For general proficiency, for girl.
	AWARDED AT THE FIRST YEAR EXAMINATION.			
1851	Levey Scholarship	40	1	For chemistry and physics.
1857	Cooper Scholarship, No. III ...	50	1	For classics.
1870	Belmore Scholarship ...	18	2	For practical chemistry and geology, to a student proceeding in the Department of Agriculture.
1877	George Allen Scholarship ...	40	1	For mathematics.
1898	Garton Scholarship, No. I ...	45	1	For French and German.
1907	Lithgow Scholarship, No. II ...	50	1	For philosophy.
	AWARDED AT THE SECOND YEAR EXAMINATION.			
1853	Barker Scholarship, No. I ...	50	1	For mathematics.
1854	Deas-Thomson Scholarship ...	50	1	For physics.
1854	Deas-Thomson Geology Scholarship.	50	1	For geology.
1857	Cooper Scholarship, No. I ...	50	1	For classics.
1886	Caird Scholarship	50	1	For chemistry.
1898	Garton Scholarship, No. II ...	45	1	For French and German.
	AWARDED IN THE FACULTY OF LAW.			
1867 1883	Wigram Allen Scholarship ...	50	1	For proficiency in the subjects of the intermediate law (Section I) examination.
1900	George and Matilda Harris Scholarship.	50	1	For proficiency in the subjects of the intermediate law (Section II) examination.
	AWARDED IN THE FACULTY OF MEDICINE.			
1877	Renwick Scholarship	45	1	For proficiency in the subjects of the first year examination in medicine.
1887	John Harris Scholarship	40	1	For proficiency in the subjects of anatomy and physiology in the third year examination in medicine.
	AWARDED IN THE DEPARTMENT OF ENGINEERING.			
1897	Peter Nicol Russell Scholarship ...	75	4	Awarded after competitive examination at entrance and at each annual examination in Mechanical Engineering.
1905	William and Jane Grahame Scholarship.	40	1	For scholarship in Mechanical Engineering at the fourth year examination.
	TENABLE BY GRADUATES.			
1888	James King Travelling Scholarship.	150	2	On advice of the Professors, to graduate of not more than four years' standing. For study and research.
1890	Frazer Scholarship	70	...*	To students qualified for the B.A. degree, on result of the third year examination in history.
1897	Woolley Scholarship	200	2	On advice of Professors in literature, philosophy, and history, to graduate of not more than four years' standing. For study and research.
...	Science Scholarship of H.M. Commissioners for the Exhibition of 1851.	150	2	Open to students of three years' standing, for the study of any branch of science with a view to developing the manufactures and industries of the country.
1905	James Coutts Scholarship ...	50	1	For distinction in English Literature at third year examination.
1905	John Coutts Scholarship ...	50	1	To a Bachelor of Science continuing his studies.
1907	Barker Graduate Scholarship ...	200	2	Awarded for study and research in Mathematics and Physics.
1907	Cooper Graduate Scholarship ...	200	2	Awarded for Study and Research in Latin and Greek.
1911	Deas-Thomson Mineralogy Scholarship.	50	1	To a student graduating in arts or science for mineralogy.
1913	Six Science Research Scholarships provided by Parliamentary vote.	150	1	For scientific research.
	MUSICAL SCHOLARSHIP.			
1910	Busby Scholarship	...	...	For a musical scholarship, not yet operative. The fund in December, 1913, amounted to £520.

* One half payable at time of award, the second half on passing examination qualifying for M.A. degree with Honours in History, or on having pursued for one year some other course of historical study to the satisfaction of the Senate.

EXHIBITIONS.

Founded.	Name.	Amount. £	Years Tenable.	How Awarded.
	AWARDED AT MATRICULATION EXAMINATION.			
1858	Salting Exhibition	25	3	On recommendation of Sydney Grammar School Trustees.
1889	Horner Exhibition	8	1	For mathematics.
	AWARDED AT FIRST YEAR EXAMINATION.			
1883	Struth Exhibition	50	5	To assist students in obtaining a Degree in the Faculty of Medicine.

Scholarships and Exhibitions.—These have been founded chiefly by private benefactors as rewards for proficiency, and for the purpose of placing the advantages of a University education within the reach of students who might, through the want of financial means, be excluded from participation in them. They are awarded only when candidates exhibit a degree of proficiency satisfactory to the Examiners. Undergraduates may not hold more than two scholarships at one time.

No. 50.—University of Sydney—Endowments—*continued.*

PRIZES AND MEDALS.

Founded.	Name.	Amount. £	How Awarded.
			AWARDED AT THE MATRICULATION EXAMINATION.
1904	Kambala Prize	10	For general proficiency, for girl from a private school.
			AWARDED AT FIRST YEAR EXAMINATION.
1885	Smith Prize	4	For experimental physics.
1886	Slade Prizes (2)	£5 each	For practical chemistry and practical physics respectively.
1892	Collie Prize	4	For botany.
			AWARDED AT SECOND YEAR EXAMINATION.
1886	Norbert Quirk Prize	5	For mathematics.
			AWARDED AT THIRD YEAR EXAMINATION.
...	Chamber of Commerce Prize	£5 5s.	To a student who has done best work in economics and commerce.
			AWARDED AT FOURTH YEAR EXAMINATION.
1911	Cooper Prize	45	For a prize in Veterinary Science.
			AWARDED AT EACH DEGREE EXAMINATION.
...	Bronze Medals	...	To the highest proficients in the various degree examinations.
			AWARDED TO A MEDICAL STUDENT.
1913	Clipsham Memorial Prize ...	4	For proficiency in operative surgery.
			AWARDED AT M.D. EXAMINATION.
1913	Ethel Talbot Memorial Prize ...	10	For thesis of special merit.
			OPEN TO GRADUATES AND UNDERGRADUATES.
1854	Wentworth Medals (2)	£10 each	For best English essays, written respectively by undergraduates and Bachelors of Arts of not more than two years' standing.
1867	Nicholson Medal	10	For Latin verse. Open to all undergraduates, and graduates of not more than two years' standing.
...	University Prize	10	For English verse. Open to all undergraduates and Bachelors of Arts of not more than three years' standing.
...	Professor Anderson's Medal ...	10	For essay on philosophical subject. Open to all Bachelors of Arts of not more than two years' standing.
1901	Beauchamp Prize...	25	For essay on some subject of literary or historical interest. Open to all undergraduates and graduates of not more than 25 terms standing from matriculation.
1901	Peter Nicoll Russell Medal ...	20	For post-graduate study in Engineering. Open to graduates in Science or Engineering of not less than one, nor more than four years' standing.
1906	Lloyd Memorial Prize	8	For a Latin Essay.
1907	Norton Manning Prize	5	For a prize in Psychological Medicine.
1910	Parkinson Memorial Prize ...	5	For a prize in Pathology.
1910	Pitt Cobbett Prize	5	For a prize in Law.
1912	Henry C. Russell Prize	...	For a prize in Astronomy. (Amount of prize not yet determined).
...	Nathan Prize	50	For Imperial History. Open to all undergraduates and graduates of not more than 25 terms standing from Matriculation.

University Prizes.—Prizes and medals in value up to £20 each are given annually by the University to students who exhibit the greatest proficiency at various Examinations, and to the most distinguished candidates in the Honour Examinations for different Degrees.

Private Prizes.—Prizes for proficiency in different subjects are awarded annually by various Professors and others, ranging in value from £1 to £25.

Military Commission.—A commission in the British Army is offered annually to a student of the Sydney University under certain conditions which may be seen in the Calendar of the University.

No. 51.—University of Sydney—Bursaries.

Founded.	Name.	Amount. £	How Awarded.
1874	Maurice Alexander	40	Tenable in Arts or in Pure Science.
1876	John Ewan Frazer	50	
1876	Ernest Manson Frazer	50	
1876	William Charles Wentworth, No. 1	50	
1876	William Charles Wentworth, No. 2	50	
1876	Burdekin	40	
1876	Hunter-Baillie, No. 1	50	
1877	Hunter-Baillie, No. 2	50	For sons of ministers of religion.
1879	Levey and Alexander. (Tenable for 3 years.)	50	Open to graduates desirous of entering a profession, but not having the necessary means. The Senate may at discretion pay the £150 in one amount.
1881	Walker (4)	£50 each	Not more than one-half of these Bursaries are applicable to female students.
1881	Walker (1)		
1886	William Charles Wentworth, No. 3	...	From accumulations from No. 2 Bursary, in accordance with the will of the founder, which provided that, when the sum of £1,500 shall have been reached, No. 3 Bursary, with a capital fund of £1,000, will become operative, and the balance of £500 will accumulate to form No. 4. The amount at credit in December, 1913, was £1,550.
1900	Henry Wait	40	For five years to a student from the first year in the Faculty of Arts proceeding to Medicine.
1901	Duncan	35	

Bursaries.—Bursaries are conferred only when satisfactory proof is produced that the means of the candidate, or of his parents or guardians are insufficient to enable him to attend the University without such assistance. There are sixteen at the disposal of the University. These have been created (on the initiation of the late Dr. Badham, when Professor of Classics) by private foundations. They are supplemented, on the part of the Senate, by an exemption from all matriculation and lecture fees, except in case of those available in professional schools. Women are eligible for not more than one half of the bursaries, founded in 1881, by the late Mr. Thomas Walker, of Yaralla, Concord; the value in each case not exceeding £25.

Secondary School—University Bursaries.—Twenty other bursaries are available annually upon the results of the Leaving Certificate Examination under the Bursary Endowment Act, 1912. Candidates must qualify for Matriculation and must satisfy the Bursary Endowment Board that their own and their parents' means are unequal to the expense of the University education. For information relating to these Bursaries see Table No. 24.

Establishment of Technical Education.—During the year 1873 a proposal was entertained to establish a Technical or Working Men's College. In 1878 a sum of £2,000 was granted by Parliament for the organisation of the Technical College, and for five years the classes were carried on at the College. In 1883 a Board was appointed by Government to take over the management, but towards the end of 1889 the Board was dissolved, and the Technical Colleges were placed under the control of the Minister of Public Instruction. In 1892 the Technical College at Ultimo was opened to students.

Hawkesbury Agricultural College.—The course of study comprises the principles of agriculture, the breeding, rearing, feeding, and management of live stock, chemistry, soil physics, botany, vegetable pathology (including the use of the microscope), entomology, veterinary science and practice, elementary mechanics, farm engineering, elementary surveying, bacteriology, meteorology, farm book-keeping, and all kinds of practical work on the farm. Students receive instruction in field operations, the use of farm implements and machinery, all dairy operations, the necessary carpentry, saddlery, blacksmithing, and engineering required on a large farm, the management of bees and poultry, and all branches of gardening and orchard work. Accommodation for 200 students.

Farm School at Wagga Experiment Farm.—Students are instructed in the principles of agriculture and horticulture suitable for the Riverina and other districts having similar climate and soils, and especially in the production of wheat of the highest quality true to name, field operations, the use of farm implements and machinery, the management of stock and poultry, viticulture, fruit-drying, raisin-making, and various branches of gardening and orchard work. Accommodation for 60 students.

Farm School at Bathurst Experiment Farm.—Students are instructed in the principles of agriculture and horticulture, field operations, the necessary carpentering and engineering required on a large farm, the use of farm implements and machinery, elementary blacksmithing, the care, breeding, and fattening of stock, fruit growing and preserving, and various branches of gardening and orchard work. The principal features of the farm work are the growing of wheats and other crops suitable for the mid-tableland district, and other districts having similar climate and soils, sheep-raising, and the production of mutton for export, and orchard work. Accommodation for 34 students.

Farm School at Yanco Irrigation Experiment Farm.—Students are instructed in the principles of Agriculture and Horticulture; field operations, use of farm implements and machinery, management of horses, sheep, cattle, pigs, poultry and ostriches, viticulture, fruit-drying, raisin-making, fruit packing, and various branches of gardening and orchard work. This farm is on the Murrumbidgee Irrigation Area, and special attention is paid to experiments in and methods of irrigation. The farm covers an area of about 2,000 acres, of which 500 are irrigated, and used for cropping as a mixed farm; 70 for fruit growing, and the remainder for grazing and ostrich farming. Accommodation for 10 students.

Farm Apprentice School at Wollongbar Experiment Farm.—Special facilities are afforded at this school for apprentices to acquire a knowledge of practical dairying work as carried out in the semi-tropical portions of the State known as the North Coast. Apprentices are instructed in the methods of growing crops for fodder, handling and treatment of milk and cream, and the manufacture of butter and cheese, cattle-breeding, rearing and management. Accommodation for 20 apprentices.

Farm Apprentice Schools at Cowra, Glen Innes, Grafton, and Dural.—The main features at Cowra are wheat and sheep; at Glen Innes, wheat and other cereals, sheep, dairy cattle, pigs and poultry, fruit growing, and artificial grasses; at Grafton, dairying, maize, potatoes, pig and poultry raising, &c. At the Dural Demonstration Orchard, attention is given to the growing of fruit suitable to the County of Cumberland. Accommodation:—Cowra, 22; Glen Innes, 24; Grafton, 18; Dural, 4.

Bursaries.—Three bursaries each may be given annually at the Hawkesbury Agricultural College, and the Farm Schools at Wagga and Bathurst Experiment Farms, and one to Wollongbar Apprentice School. The bursaries will be tenable for three years at the College, for two years at the Farm Schools, and one year at the Farm Apprentice School, and will be awarded to youths whose parents' circumstances and their own aptitude and qualifications render them deserving of this assistance.

Scholarships.—Three scholarships are awarded annually to students of the Hurlstone Agricultural High School who have passed with credit through the two-years' course at the school, and entitle the holders to a two-years' course at the Hawkesbury Agricultural College without payment of fees, and to a grant of £1 10s. per annum for text-books. The winners commence on the second-year course at the College.

The Government "Farrer Scholarship" is of the value of £91, and covers three-years' course at the Hawkesbury Agricultural College, including education, maintenance fees, text-books, and apparatus, medical fees, laundry charges, and sports fees.

Farrer Research Scholarship.—This scholarship is established to enable the holder thereof to carry out researches tending to the improvement of wheat cultivation, thereby continuing the work of the late William Farrer. Such researches may be carried out in the laboratories of either the Department of Agriculture or the University, or in the field, or in the mill or bakehouse, or a combination of any of these. The scholarship is open to competition amongst graduates in science, or undergraduates, diploma students of the Hawkesbury Agricultural College, or a similar institution, young farmers with necessary qualifications, &c. The scholarship is valued at about £90 per year.

The *Daily Telegraph* "Farrer Scholarship" consists of a grant of £10 to the best wheat student at Bathurst, Wagga or Cowra Farm School each year

Hurlstone Agricultural High School.—Students receive instruction in practical operations of agriculture and experimental work in the growth of crops, action of manures, &c. There are 36 students in residence. There were 11 bursars and 9 holders of scholarships in December, 1913.

Government Agricultural Training Farm.—The Casual Labour Farm, Pitt Town, was discontinued on 31st December, 1910, since which date the whole of the farm at Pitt Town has been used exclusively as an agricultural training establishment for lads, and is now known as the Government Agricultural Training Farm.

The discontinuance of the casual labour portion of the farm has been gradual, and began about April, 1908, and it is estimated that in the future there will be some 500 lads enrolled, the Department having taken over the management of the "Dreadnought Scheme." The figures shown in the above table are for the year ended 30th June. There were 111 in residence at 30th June, 1914.

Technological Museum.—This museum, established in 1879, was first administered by a committee of management appointed by the Trustees of the Australian Museum. It was transferred to the Department of Public Instruction on 1st January, 1890, as an integral part of the system of Technical Education. Special endeavours are made to collect the raw products and samples illustrative of the industries and manufactures of Australia; and the museum contains a large number of mineral and vegetable products, and a comprehensive series of specimens of wool.

The Technological Museum and Branches are open to the public free of charge.

School Museums.—At most of the Public Schools, Museums have been established for the practical use of the pupils. The Technologica Museum assists public schools in Nature-study. Specimens are named, classified, and supplied for the purpose of assisting teachers in the formation of school museums.

Australian Museum.—The Australian Museum was founded in 1836. It was originally connected with the Botanic Gardens, and was located in a room in Macquarie-street, Sydney, but was afterwards removed to the Surveyor-General's Office, and again, in 1849, to its present site. Its affairs were managed by a committee until 1853, when the Museum was incorporated under Trustees. Provision is also made for a State endowment which is supplemented by annual Parliamentary appropriations. The Museum is open to the public free of charge, except on Mondays, when students only are admitted. It is primarily a Museum of Natural History.

Museum Library.—The library attached to the Australian Museum contains many valuable works of reference. Presentations are continually received. Although essentially a scientific library for the use of the staff, it is accessible to students under very reasonable restrictions. It contains 20,000 volumes. The Museum publications consist of Catalogues and Records containing papers by the staff on current scientific work.

No. 72.—Agricultural and Forestry Museum.

Total number of Exhibits in the Museum	7,000

Note.—The Museum, situated in George-street North, Sydney, is open to the public free of charge.

No. 73.—Mining and Geological Museum.

Water-colour Drawings	334
Black and White Works	536
Statuary, Casts, and Bronzes	160
Various Art Works in Metals, Ivory, Ceramics, Glass, Mosaic, &c.	373

The estimated total value is £143,000.

Country Loan Collection.—112 pictures are distributed amongst the country towns in the State.

Art Students.—Art students desirous of making studies of works in the Gallery may do so under certain regulations.

Wynne Art Prize.—Instituted in 1897, and consists of the interest on approximately £1000, bequeathed by the late Richard Wynne. The prize, which is under the control of the Trustees of the National Art Gallery, is awarded annually to the Australian artist producing the best landscape painting of Australian Scenery in oils or water-colours, or the best production of figure sculpture executed by an Australian sculptor.

NOTE.—The National Art Gallery of New South Wales is open to the public, free of charge, on Week-days and Holidays at 10 a.m., and on Sundays at 2 p.m.

No. 75.—The Sydney Observatory, 1913.

The Sydney Observatory was established in the year 1856. It is situated 144 feet above sea-level. Latitude, 33° 51′ 41·1″ south; longitude, 151° 12′ 23·1″ east.

The Observatory was visited by 483 persons during the year.

Astronomical Work at Sydney Observatory.—The observations taken comprised 449 clock stars, 76 azimuth stars, and 398 determinations of collimation and azimuth. The 11½-inch refractor was used on six evenings making observations with Westphal Comet, and on sixteen evenings observing the Zinner Comet. At the Red Hill Observatory no photographic plates were exposed (with the exception of a few test plates which were taken for focus and adjustment purposes) owing to the re-modelling of the Astrographic Telescope. The daily time-ball service at Sydney and Newcastle has been maintained; and the seismograph has been working continuously throughout the year, 77 tremors having been recorded on the instrument.

No. 76.—Meteorological Bureau, Sydney, 1913.

The Meteorological Bureau, Sydney, is administered by the Government of the Commonwealth of Australia.

Two Bulletins and one Weather Chart are published daily. The Bulletins, issued at 10 a.m., and 3 p.m., contain respectively full reports at 241 stations:—

(1) Pressure, temperature, wind, rain, weather, and state of rivers at 9 a.m.
(2) Wind, weather, and state of sea at 2 p.m.

Another Bulletin showing pressure, temperature, wind, rain, weather, and state of sea at the principal centres of the other States is issued at 1 p.m. daily.

The Weather Chart, published during the afternoon, contains complete data, isobars, full notes, shaded rain-area, and forecast for the ensuing 24 hours. A local forecast for Sydney is published at 10 a.m. daily, and forecasts for the whole of the Commonwealth at 1 p.m.

During the year there were issued 11,888 Bulletins, 21,752 Weather Charts, and 12,513 Rain-maps of New South Wales. These latter show the daily, monthly, annual, and storm distribution of rainfalls, together with departures from average.

An isobaric chart, depicting also by symbols at a number of stations, the direction of wind, rain-areas, thunderstorms, and condition of sea, together with a concise note on the resulting weather since the previous day, was prepared regularly in the Weather Bureau for publication in the Sydney newspapers.

Forecasts were telegraphed each day to 114 towns.

During the year 43 extra climatological stations were established, the number now being 2,040. All stations are equipped with rain-gauges, and they may be classified as follows:—

7	with self-recording thermograph.*
11	,, barograph.*
39	,, mercurial barometers, hygrometers, maximum and minimum thermometers.
94	,, maximum and minimum thermometers with properly-constructed screens.
1,889	,, rain-gauge only.

Monthly and weekly reviews of the weather over Australia generally are prepared, tracing the progress of the different changes in atmospheric pressure, and their effect upon the weather; and copies are sent to the metropolitan and country press.

---

* These Stations have also mercurial barometers, maximum and minimum thermometers, hygrometers, and rain-gauges, but are not included in the general classification.

NOTE.—For returns relating to Meteorology, see Part No. 4.

* In December, 1908, the maintenance and control of the Lending Branch devolved upon the Sydney Municipal Council, but by agreement the Trustees of the Public Library were to continue the management until the conclusion of the arrangements for taking over the branch. The Council entered into possession on the 15th October, 1909. Particulars of the volumes issued on week-days from January to October, 1909, are not available.

Donations of Books, &c.—During 1913 the general collection of books was increased by 8,359 volumes, inclusive of 1,541 presentations, and 294 books, maps, newspapers, and periodicals received under the provisions of the Copyright Act.

Books borrowed by Country Libraries, &c.—There were 8,709 volumes issued to country libraries in 98 towns of the State, 1,543 volumes were sent to 25 different lighthouses, 2,980 volumes were lent to 43 different Public School Teachers' Associations, and 1,137 volumes were lent to individual students in the country for special study.

NOTE—A detailed classification of books in the Library, as published in former years, is not available for 1913.

* Holidays. NOTE.—The Library is open to the public free of charge.

The Public Library of New South Wales.—The "Free Public Library" was established on the 1st October, 1869, when the buildings and books of the "Australian Subscription Library," founded in 1826, were purchased by the Government. During the years 1886-7 considerable additions were made to the premises; the new buildings were opened in April, 1890. In 1877 the operations of the Library were extended by means of a Lending Branch. Under certain regulations books were borrowed by individuals, country Libraries, Mechanics' Institutes, and groups of Students in Country Districts, free of charge. During 1903 the Library took control of the "Lighthouse Library," and now lends boxes of books to lighthouses of New South Wales. During 1895 the name "Free Public Library" was changed to "The Public Library of New South Wales." In December, 1899, the Library was incorporated, with a statutory endowment of £2,000 per annum.

Mitchell Library.—Mr. D. S. Mitchell, M.A., at his death on 24th July, 1907, bequeathed to the State the whole of his unique collection, consisting of books and manuscripts principally relating to Australasia, and comprising 60,100 volumes and 300 framed paintings of local historic interest, a collection valued at £100,000. The Library was officially opened on 7th March, 1910, and the public are, under certain necessary regulations, admitted. The volumes now number 77,375.

* Includes amounts of subsidies paid on account of former years. † In addition £69 was granted to Herd Testing Association.

NOTE.—From 1879 to 30th June, 1914, the sum of £557,560 has been granted to these Societies.

No. 87.—The Agricultural Bureau of New South Wales, 1913.

THE central organisation is the Department of Agriculture, Sydney, with branches throughout the Agricultural and Horticultural districts of the State.

A Government subsidy is paid, at the rate of ten shillings for every pound received in membership fees.

Lectures on the following subjects are arranged wherever possible:—

(1) Agriculture in all its branches, including demonstrations in silage making, &c.
(2) Veterinary Science.
(3) Sheep and Wool, including practical demonstrations amongst farmers' flocks.
(4) Dairying in all its branches.
(5) Fruit-growing, and practical demonstrations in pruning, budding, grafting, &c.
(6) Profitable poultry-farming.
(7) Apiculture.
(8) Viticulture.
(9) Demonstrations in clearing land and sub-soiling with explosives.

MEMBERSHIP AT 31ST DECEMBER, 1913.
